ARTICLES

Jirong Jiao, Paul Goodwin, and Bernard Grodzinski Photosynthesis and export during steady-state photosynthesis in bean leaves infected with the bacterium *Xanthomonas campestris* pv. *phaseoli* 1

Li-Tzu Li and James W. Kimbrough Spore ontogeny in species of *Phillipsia* and *Wynnea* (Pezizales) 10

B.A.D. Hetrick, G.W.T. Wilson, and T.C. Todd Mycorrhizal response in wheat cultivars: relationship to phosphorus 19

C. Gillet and F. Liners Changes in distribution of short pectic polysaccharides induced by monovalent ions in the *Nitella* cell wall 26

Steven C. Grossnickle and John H. Russell Changes in shoot water relations parameters of yellow-cedar (*Chamaecyparis nootkatensis*) in response to environmental conditions 31

A.R. Lansac, C.Y. Sullivan, and B.E. Johnson Accumulation of free proline in sorghum (*Sorghum bicolor*) pollen 40

Christopher J. French and Maureen Elder Movement of tomato mosaic virus strains in *Gomphrena globosa* as related to temperature sensitivity and plant resistance 46

Donald M. Britton and Daniel F. Brunton *Isoetes* ×*pseudotruncata*, a new triploid hybrid from western Canada and Alaska 51

T.A. McKeown, S.T. Moss, and E.B.G. Jones Ultrastructure of the melanized ascospores of *Corollospora fusca* 60

Toini Holopainen, Seija Anttonen, Virpi Palomäki, Pirjo Kainulainen, and Jarmo K. Holopainen Needle ultrastructure and starch content in Scots pine and Norway spruce after ozone fumigation 67

Walter Rossi and Alex Weir New species of Laboulbeniales (Fungi, Ascomycetes) from Sulawesi, Indonesia 77

Joshua P. Schimel, Keith Van Cleve, Rex G. Cates, Thomas P. Clausen, and Paul B. Reichardt Effects of balsam poplar (*Populus balsamifera*) tannins and low molecular weight phenolics on microbial activity in taiga floodplain soil: implications for changes in N cycling during succession 84

P.M. Catling *Carex oligosperma* × *Carex rostrata*, a new natural hybrid in section *Vesicariae* from northern Ontario 91

H.J. Zeringue, Jr. Possible involvement of lipoxygenase in a defense response in aflatoxigenic *Aspergillus* – cotton plant interactions 98

Kunihiko Hata and Kazuyoshi Futai Variation in fungal endophyte populations in needles of the genus *Pinus* 103

C. John Runions and John N. Owens Pollen scavenging and rain involvement in the pollination mechanism of interior spruce 115

Hongping Liang and Khidir W. Hilu Application of the *mat*K gene sequences to grass systematics 125

Anupa Singh Growth, physiological, and biochemical responses of three tropical legumes to enhanced UV-B radiation 135

Bernard Moussel, Colette Moussel et Jacques Moret Les systèmes de reproduction des espèces françaises du genre *Romulea* (Iridaceae) : données morphohistologiques 140

NOTE

Masayuki Maki Differences in plant size and flower production between hermaphrodites and females of two gynodioecious *Chionographis* (Liliaceae) 150

February / Février

M. Habte and M. Soedarjo Response of *Acacia mangium* to vesicular–arbuscular mycorrhizal inoculation, soil pH, and soil P concentration in an oxisol 155

Jacques Labrecque et Luc Brouillet Biosystématique du complexe de l'*Aster novi-belgii* (Asteraceae : Astereae) au Québec 162

Charles B. Fenster, Cynthia L. Hassler, and Michele R. Dudash Fluorescent dye particles are good pollen analogs for hummingbird-pollinated *Silene virginica* (Caryophyllaceae) 189

De-Wei Li and Bryce Kendrick Functional and causal relationships between indoor and outdoor airborne fungi 194

A.-L. Jacquemart and J.D. Thompson Floral and pollination biology of three sympatric *Vaccinium* (Ericaceae) species in the Upper Ardennes, Belgium 210

Christopher T. Cole and Martin I. Voskuil Population genetic structure in duckweed (*Lemna minor*, Lemnaceae) 222

Donald R. Roberts, Jr., Charles W. Mims, and Melvin S. Fuller Ultrastructure of the ungerminated conidium of *Blumeria graminis* f.sp. *hordei* 231

B.M.H. Larson and P.M. Catling The separation of *Eleocharis obtusa* and *Eleocharis ovata* (Cyperaceae) in eastern Canada 238

Christine S. Lockhart Aquatic heterophylly as a survival strategy in *Melaleuca quinquenervia* (Myrtaceae) 243

Ann B. Gould, James W. Hendrix, and Richard S. Ferriss Relationship of mycorrhizal activity to time following reclamation of surface mine land in western Kentucky. I. Propagule and spore population densities 247

D.M. Maddox, D.B. Joley, D.M. Supkoff, and A. Mayfield Pollination biology of yellow starthistle (*Centaurea solstitialis*) in California 262

David G. Williams and R. Alan Black Effects of nutrient amendment and environment on growth and gas exchange for introduced *Pennisetum setaceum* in Hawaii 268

Christine E. Conn and Frank P. Day Response of root and cotton strip decay to nitrogen amendment along a barrier island dune chronosequence 276

Robert J. Cabin, Ann S. Evans, Diane L. Jennings, Diane L. Marshall, Randall J. Mitchell, and Anna A. Sher Using bud pollinations to avoid self-incompatibility: implications from studies of three mustards 285

A.D. Lloyd, E.J. Mellerowicz, R.T. Riding, and C.H.A. Little Changes in nuclear genome size and relative ribosomal RNA gene content in cambial region cells of *Abies balsamea* shoots during the development of dormancy 290

A. Mariani, F. Pupilli, and O. Calderini Cytological and molecular analysis of annual species of the genus *Medicago* 299

Marcelo A. Aizen and Hilary Woodcock Effects of acorn size on seedling survival and growth in *Quercus rubra* following simulated spring freeze 308

NOTES

Boung-Jun Oh, Richard A. Frederiksen, and Clint W. Magill Identification of RFLP markers linked to a gene for downy mildew resistance (*Sdm*) in sorghum 315

Donald E. Collier No difference in leaf respiration rates among temperate, subarctic, and arctic species grown under controlled conditions 317
